COMMERCIAL SHRIMP POT FISHERY ANNOUNCEMENT DISTRICT 11-SEYMOUR CANAL CLOSURE

Douglas. . . The Alaska Department of Fish and Game announced today that the District 11-Seymour Canal commercial pot shrimp fishery will be closed effective at 4:00 p.m., Monday, October 8, 2012.

The department has been on the grounds in Seymour Canal and has been monitoring overall harvests as well as conducting an experimental female shrimp spawner-index program of harvested shrimp. Available information indicates that the fishery should be closed by the projected time in order to provide for sustainable harvests. Today the department announced closure of the fishery on the grounds.

All shrimp pot gear must be removed from the water or placed in storage by the time of this closure. Pots may be stored in the waters of District 11-Seymour Canal until 4:00 p.m., Tuesday, October 15, 2012. Stored pots must have all doors secured fully open and all bait and bait containers removed.

Shrimp tickets must be submitted to an Alaska Department of Fish and Game office within seven days of the closure. Fishermen are reminded that catcher/sellers that are intending to sell shrimp to persons unlicensed to process shrimp (ie. dock sales) must fill out an ADF&G fish ticket indicating the weight of the shrimp on board, by species, before any shrimp are removed from the vessel [5 AAC 31.143. (d)].

All commercial shrimp fishermen are required to notify the department within two business days of deploying gear and within two business days after ceasing fishing in a district, or portion of a district, with a GHL. Catcher/Processor and Catcher/Seller vessels must report, weekly, the pounds in whole weight by species of shrimp on board the vessel taken during the open shrimp-fishing period. The department is implementing these requirements in order to more effectively track effort and harvest in the fishery. For further details refer to the News Release dated September 14, 2012.

The emergency order corresponding with this announcement is EO 1C2312.
